

Engaging Your Girls During Stay-at-Home Orders

First of all, visit our website [here](#) for instructions on how to video conference with your girls. Face-to-face time is a great way to beat the isolation blues.

Video conference, text or post in your private troop Facebook page about things to do each week:

As a troop you can:

- Watch our virtual programs together
- Pick and watch a movie together
- Do the same YouTube yoga class
- Suggest different ways to do the same craft ([check out our Pinterest page!](#))
- Earn a cooking fun patch by encouraging the girls to help make a meal for their family

As individuals, girl can:

- Earn a badge with their family
- Earn fun patches with their family (advantageemblem.com)
- Put the Girl Scout Law into action at home, then share with the troop
- Participate in a “Family Service Project” in place of community service projects

Have Fun!
